Any other Feedback...

- Brilliant presentation- I feel informed now! Really great to see inside classrooms.
- Good to meet the teacher and understand more about the learning the kids are doing.
- Great to get a chance to see inside classrooms and a chat with the teacher.
- It's good to come in and meet the teachers and see my son's classroom. It's also good due to work to do this in evening.
- Great to meet the teachers and hear the overall focus for the learning.
- Very useful to see what the children are being taught.
- Lovely to hear what they've been up to.
- Thank you ☺
- Really helpful ☺
- Very nice to hear plans for the year
- Good to see the classrooms. Would love a bit more detail about levels of learning what level 3 or 4 etc. actually means.
- Great to hear some details about learning approaches as you don't always get a clear idea from the children!!
- Homework - having one sheet per day x2 days would be an idea. Focused on one point - maths observations / Writing time.
- Would prefer old fashioned form of homework i.e. 1 sheet as opposed to the books or on tablets.
- Thanks for the information. Good to be back in school and meet face to face.
- Thank you for all your hard work in organising tonight's presentation! Great Learning planned! ☺
